800 lumen bulbs are for  
shade **sizes C & D**

1100 lumen bulbs are  
for shade **sizes E & F**

1600 lumens bulbs are  
for shade **size G**

# BULBS for BAMBOO & HANJI SHADES

We include all bulbs needed. Typically we use 2700k bulbs, unless otherwise requested by the designer.

Most quality dimmers are compatible with these bulbs but please check with the manufacturer for specific dimmer requirements. Drivers are not required, the bulbs have internal transformers. These are the E26 medium base bulbs.

Bulbs for countries outside the U.S. are **not** included and need to be sourced by others.

The smaller, 450 lumen bulbs can be purchased online via 1000 Bulbs.

Backups or replacements for Feit bulbs can be purchased at most Home Depot stores.

3000k (cooler color temperature) bulbs can be purchased if desired.
